# DOCUMENT CAMERA

## EAPL-DC2i

The DC2i features a 8-megapixel sensor, 544X total Zoom (17X Optical Zoom / 8X Digital Zoom, 4X Mechanical Zoom) and up to 30 frames-per-second video (at full resolution) for stunning image quality and performance allowing you to see detail often not visible to the human eye. Take photos or videos using the camera function and include them in future presentation – it's all so easy. Create more engaging lesson content by easily capturing images, video and audio with the DC2i Document Camera. You can even take a video of a science experiment with the document camera, save it on your PC/Laptop via USB or save to a SD Card and use it in your next class and students can record their demonstrations during presentations for later review. The DC2i is powerful, robust and full of useful features that will revolutions any classroom lessons or meeting room.
